## STOCKHOLDERS SIGN DOCUMENTS

The Subscription Agreement, Proprietary Lease, Pledge Agreement, and Stock Power were all signed and notarized on January 24, 1975. Only four more people need to complete the signing of these documents.

The response was very good with our people responding on schedule and patiently waiting their turn to sign.

Many thanks to Martha Sacil, Elsie Sato, Mike Otake, and Eddie Lapa for helping us complete this major task.

Signing these documents were 241 Kahukuans who were made legal stockholders of this corporation.

After the closing of Escrow, you will receive a copy of the Proprietary Lease.

Many thanks to all of you for your consideration in completing the necessary signing.

## SERIOUS

*theft* PROBLEMS

Stealing, burglarizing, pilferage -- call it what you like, we have it.

During the past year and up to now, we have had 22 such cases in Kahuku to our knowledge.

We cannot and should not let this continue. We must stop this sort of act somehow before something more drastic happens.

We found out that a great majority of the communities on the Windward and Leeward areas are having problems of this sort.

We have asked the police department to check out our village as often as possible. We have also asked the people to inform us if they plan a vacation.

It would be a good idea to ask your neighbor to keep a "look see" on your home. To help us correct this situation, please write or call us, and let us know of your ideas on this matter.

## FOR YOUR HEALTH

A unique Family Health Education effort is underway for northern Koolau residents who are under doctor's care for diabetes, hypertension, heart disease, and impetigo. The Family Health Education Program is a means of encouraging preventive care and health maintenance. According to Vivian Zane, director, "We need to get people away from a crisis orientation, or waiting until problems are severe before seeing a physician."

Patients who come under these four diagnoses are referred to the project staff by their physician, public health nurse, or dentist. The project is limited to the four problems because of the need for intensive rather than extensive education. These illnesses can be controlled and minimized by the patient who follows his physician's instructions.

Once referred to the program, Kahukuans are seen by Lorraine Freitas, RN. Working with the physician, she offers individual instruction for patients and their families.

Initiated by concerned residents, the program is working with a \$55,030 grant from the Regional Medical Program of Hawaii. Administrative help and professional staffing came from St. Francis Hospital. The staff works closely with an Advisory Council, primarily made up of physicians and residents of the Kahaluu-Kahuku area.

There is a project office at Kahuku Hospital, ph. 293-9221.

## GIRL SCOUTS KEEP THEIR PACE

Many thanks to those who helped support the cause of the GSA in their annual cookie sale. Although the prices went up, the notion quickly disappeared as soon as you tasted the YUMMY cookies.

Last January 18, the eight girls of the troop met at Danella Bumanglag's home for a cooking class. The girls were responsible for preparing the meal, setting the table, and the cleaning which follows anything that little girls seek out to do. They received a quick course in cooking corn chowder. Yours truly was invited to sample their cookery. The girls were already taking their seconds as I sampled their good food.

If you want to be jarred by the excitement of these girls, try sitting in one of their meetings, and you'll see what I mean.

With Danella leaving, no leader has been named as of this writing.

## BROWNIE TIDBITS

Kahuku's Brownie troop spent a fun-filled day last January 25 at Camp Paumalu. Someday, the little Brownies will be able to have a real overnight camp just like the Girl Scouts, but for now, there is still a lot to learn.

On February 22, Brownies from all over the island will come together at Castle High for "Thinking Day" -- learning about the lifestyles of girls all over the world. The troop has chosen to represent the Philippines and would like very much to have the people of the community help with costumes, the teaching of dances, or with crafts. Meanwhile, the Brownies will be working hard in preparation for that day.

## BIG ISLAND TRIP

Grades 4-6 are eyeing a trip to the Big Island next year and will put out all the effort they can to reach that goal. Fund raising will begin with their first project-- collecting coconuts. Won't you help?

They need coconuts (solid spoon meat and matured coconut) husked if possible. The company will purchase each for 25¢ as long as it has meat and water.

Collection is taking place now until May. If you do not know of anyone to give your coconuts to, please contact Kahukuan News. Thank you very much.

# LIBRARY WARMINGS

Kahuku Library has recently filled two positions on an Emergency Hire basis.

Mrs. Karen Stockton, Librarian III, is the first community librarian since its opening in 1968. Part of her job is to meet with the people of the community, rap with them so that she can better evaluate the library's services, improve them, and then make the services or resources known to the public. Improvements on displays and on card catalogues are being looked into.

Born in Honolulu, Karen has lived in Pupukea for a year and a half. She has girl. Her degrees in Library Sciences were obtained at UH, and she has travelled to the Mainland and England. She has an interest in crafts (weaving), but more so, she has an interest in anything. Prior to this job, she was at the Pearl City Regional Library.

Get to know her and let her and the library make things work for you.

Norma L. Vasquez, nee Camit, is a familiar face, being that she worked there when the library was first opened. As Clerk II, she will be working at the Circulation Desk.

Norma now lives in Punaluu. With a teaching degree, she was at Keiki O Koolau last year. \*\*\*There is a movie program every Friday in the library, at 1 PM.

## KAHUKU FEDERAL CREDIT UNION

KFCU held their annual dinner meeting last Jan. 24 at the school cafeteria. Results from the elections are as follows:

Jessie Agustin (returnee) and Santiago Ramos, Sr. (new) were elected for 3-year terms on the board of directors. Remaining on the board were Seiko Shiroma, Max Suzuki, and Harry Shigemitsu. Josephine Faustino and Mike Otake were elected for 3-year terms on the Credit Committee. Remaining on the committee were Norman Rule, Junior Primacio, and Tabu Kakuni. The Supervisory Committee will be appointed at a later date.

Aside from the seriousness of the elections, 36 door prizes were won by lucky ticket holders. Among the winners were the Poncianos, Faustinos, Tubals, Ngayans, Tampons, Manipons, Cameros'. The Cadiz family won 3 prizes, and the Grand Prize was captured by Milari.

All enjoyed the food, catered by Nishi Caterers.

## K.C.A. SPONSORS SPORTS

The Kahuku Community Association is sponsoring a boys' (15 and under) and men's basketball league. All interested are asked to turn out on Saturday, 10 AM for the boys, and Sunday, 12 PM for the men.

For a girls' league (14 and under), interested girls are asked to turn out on Saturday, 10 AM.

WEDNESDAY, MARCH 31, 1975

FEATURED IN THE INSIDE...

...new officers for organization  
...new KHC Principal...showing  
...latest news from the Mill...

Dear Stockholder:

The nation is experiencing an increase in costs in almost every aspect of living today. Our Corporation is without exception. Last year we spent more money than we realized from all of our revenues. In order that we may maintain the same level of services for our stockholders we will need approximately \$22,000 to balance the 1975 budget.

In view of this increased cost to operate the corporation for 1975 the following action was taken by the Board of Directors:

1. FAMILY NON-DEPENDENT TENANTS

Effective June 1, 1975, stockholders will be assessed an amount equal to (100%) their current monthly rent and water charge for each non-dependent family living with them.

2. SINGLE NON-DEPENDENT TENANTS (Nephews, cousins, friends, etc.)

Effective June 1, 1975, stockholders will be assessed an amount equal to (100%) their current monthly rent and water charge for each single non-dependent tenant living with them.

3. SINGLE NON-DEPENDENT TENANTS (Sons and daughters)

Effective June 1, 1975, the assessment to the stockholder will be an amount equal to one-half (50%) of his current monthly rent and water charge for each son and daughter.

4. BLANKET ASSESSMENT

Effective June 1, 1975, and ending December 31, 1975, an amount of \$4.00 will be assessed upon each stockholder, each family non-dependent tenant, each single non-dependent tenant (nephews, cousins, friends, etc.) and each single non-dependent son or daughter.

Please be informed that this action will be discussed further at the annual stockholders' meeting.

PROXY VOTE REMINDER

Article I, Section 6 of the Code of By-Laws reads:

6. Proxies

Any stockholder may authorize any person to vote as a proxy provided that authorization in writing must be filed with or presented to the corporation prior to the meeting at which such proxy or proxies are to be acted. A limit of five proxy votes is permitted.

Stockholders who expect to be absent from the annual stockholders' meeting and who wish to vote should follow this procedure. If you have any questions, contact the KHC office.

Very truly yours,  
Thomas Nakayama, President

#### YOU'VE COME A LONG WAY, GIRLS!

The combined Girl Scouts and  
 Brownies pot-luck dinner on March  
 23 was a product of hard efforts  
 spent by leaders, parents, and  
 girls--and a major breakthrough  
 for a once unstable organization.

Over 60 people turned out for  
 the excellent foods and impromptu  
 entertainment by the young ones.  
 Momi Stephenson, GSA field direc-  
 tor, was on hand to witness this  
 family activity. Commented one  
 parent, "We should have this more  
 often!"

Soon after, on the 26th, the  
 Brownies had a cookout.

The next joint activity will  
 be the Investiture Ceremony,  
 tentatively scheduled for April  
 22.

The Junior Girl Scouts now  
 meet at the Emergency Quarters  
 every Tuesday from 2:30-3:30.

#### ELEMENTARY SCHOOL GOES PLACES

 side help in collecting coconuts  
 to partially finance their future  
 Big Island trip. Collection will  
 continue thru the remainder of

 phase of the collection, Mrs.  
 Naud's homeroom won \$10 (first

 on scholarship, leadership,  
 beauty, poise, and an essay,  
 "What's Right About America."

Tickets are now being sold by  
 the girls (\$3.50) for the June 14  
 event. The girls and their spon-  
 sors are Zenaida Molina (Kahuku  
 Farms-Lowe Inc.), Cheryl Elvenin  
 (Waimea Falls Inc.), and Melinda  
 Ancog (Alii Flowers).

#### KAHUKU YOUTH ORGANIZATION

In a recent KYO meeting, the  
 following were elected officers:  
 President Harry Au, VP Urbano  
 Manipon, Secretary Pat Au, and  
 Treasurer George Stibbard.

Funding for their activities  
 comes from money-making projects,  
 such as the successful country  
 store last year.

At their first executive meet-  
 ing, scheduled for March 31,  
 President Au hopes to lead a dis-  
 cussion of 1975 activities for  
 boys and girls. Possibly, there  
 may be a formation of a "Makuli  
 (old man's) League" in volleyball  
 or softball. League playing is  
 expected to take place with Hauula  
 and Kaaawa, and Sunset Beach who  
 has yet to form a league.

#### NEW PRINCIPAL AT KAHUKU SCHOOL

Mr. Richard Hadama assumed his duties as Principal of Kahuku High on March 20 after Mr. Harold E. Chong left for the Castle High School principalship.

Born in Kauai, he is quick to associate with the plantation-like atmosphere at Kahuku. He attended the University of Hawaii, taught at Kaimuki, and served administrative posts at Castle and most recently, Kailua Intermediate, totalling 15 years with DOE. He now resides in Kaneohe.

Although he has been at Kahuku for only a short while yet, he is eager to learn more about the school, its students, and the Kahuku community.

School size, says Mr. Hadama, does not make Kahuku that much different from other schools. Schools are basically the same, barring the differences in the campus structures. At present, KHS enrollment is almost 1500--which includes the high school, elementary and Sunset Beach schools.

Mr. Hadama is extremely impressed with the enthusiasm of the students and teachers in getting things done. He is confident that the students' accomplishments in sports, music, and academics will overshadow impressions created by the news coverage on the recent violence on campus.

Current projects on campus include changes on the Weimer field (bleachers and lights), and the placement of dry wells to help the drainage/flooding problems on campus.

Details on the new Gym and Administration buildings will be covered in future KN issues.

Also, Mr. Esmund Chun will leave his Vice-Principal position at Kahuku for the position made vacant by Mr. Hamada's departure from Kailua Intermediate. No administrator has been named to fill Mr. Chun's position as yet.

#### PARENT-TEACHER-STUDENT ORGANIZATION

The following are the new officers for the organization:

President	John Keawe
1st VP	William Ah Quin
2nd VP	Irene Primacio
Secretary	Marian Keawe
Treasurer	Tui Vanisi

## M O R E A B O T T H E S U G A R M I L L

A major expansion of the specialty shopping complex was announced by Blackfield Hawaii Corporation. The expansion includes an elaborate museum and exhibit area, a film presentation featuring rare film foot-  
age of the Mill's operation, and a guided, walking tour of the entire mill.

The originally planned summer opening has been moved to November 1, 1975 as a result of the company's plans to expand the shopping complex to a major tourist attraction. There are plans for 60,000 square feet of specialty shops, restaurants, and fast food facilities.

"We have retained the services of Island Heritage, publishers of the book "The Hawaiians" headed by Robert Goodman, to serve as consultants. They are now preparing a complete history of the Mill, which will be published in book form in the fall," stated Alan C. Beall, President of Blackfield Hawaii.

Noted Hawaiian sculptor Ed "Mick" Brownlee has been contracted to assist in the interior designing. Bob Liljenwall and Rolly Crump, both formerly of Walt Disney Productions, will supervise the over-all installation and design of the tour and show areas.

The optional one-hour tour covers a "day in the life of a sugar plantation worker" and the re-creation of plantation life in its most active period during the 1930's. Later, a multi-media show, highlighted with film footage of Kahuku Sugar Mill operations, will be presented.

From the pre-show area, guests will get a close-up look at the Mill and all of its operations. The Mill will not be actually processing cane. Rather, the key equipment and machinery will be working, activated by silent, auxiliary motors to show the sugar processing stages.

"We intend to make the Kahuku Sugar Mill one of Hawaii's foremost attractions, and we are making every effort to insure that the Mill will be an attraction of which Hawaii can be proud," Beall said. "We believe that by authentically re-creating the life of the Sugar Mill and plantation life, we will be able to show visitors life as it was in the islands."

Serving as project manager is William Eddy, with Seiko Shiroma as construction supervisor, and Mary Fitzsimmons in Public Relations.

## CAMPBELL ESTATE'S TRUSTEES "WILLING TO EXTEND LEASE"

Series of meetings with representative's of Campbell Estate, in Honolulu and in Kahuku resulted with a letter from the executive officers of the trustees willingness to extend to Kahuku Housing Corporation a lease term up to 40 years.

Because of the unresolved planning and engineering matters essential to determine the precise boundries we are unable to finalize a proposed lease extension.

Campbell Estate and Kahuku Housing are working toward finalization. When both parties have agreed to the plans, President, Tom Nakayama, plans to meet with the people of Kahuku to explain the plans.

Both, Campbell and Kahuku Housing have basically agreed to the following.

### FUTURE PLANS FOR KAHUKU VILLAGE

#### SCOPE:

IT IS OUR WISH AND DESIRE TO CONTINUE PROVIDING HOMES FOR OUR PEOPLE, IMPROVING OUR VILLAGE, MAINTAINING THE PLANTATION ATMOSPHERE, MAINTAINING OUR CULTURAL WAYS AND TRY TO PRESERVE THE TOGETHERNESS THAT THIS COMMUNITY POSSESSES.

#### GENERAL PLAN:

1. TO PROVIDE RENTAL HOMES AT A LOW POSSIBLE COST TO OUR PEOPLE.
2. CONSOLIDATE KAHUKU TOWN SURROUNDING CAMPBELL ESTATE MASTER PLAN COMMERCIAL AREA. THIS WOULD ENCOMPASS RE-LOCATING BUILDING, BUYING SECOND HAND HOMES, AND FITTING IT IN A PLAN FOR KAHUKU'S FUTURE.
3. BASICALLY WE PLAN TO MAINTAIN NOT MORE THAN THE AMOUNT OF HOMES WE HAVE TODAY (244).
4. MAINTAIN MONIES TO BUILD A NEW WATER SYSTEM.
5. PROVIDE AN INPUT IN PLANNING THE "SUPPORT HOUSING" TO ENABLE OUR PEOPLE TO BENEFIT.

OUR INTEREST IS TO KEEP THE "SUPPORT HOUSING" AS RURAL OR COUNTRY STYLE SO AS IT MAY BLEND WITH OLD KAHUKU VILLAGE.

Forty years to many of us is the rest of our lives in Kahuku. This is what most of us want and we can make it become a reality if we work together and do our share in making the kind of town we want it to be.

## KAHUKU HOUSING ACQUIRE TEACHER'S COTTAGE

The Commissioners of Hawaii Housing Authority at their meeting on May 9, 1975 approved the donation of the Kahuku Teacher's Cottage to Kahuku Housing Corporation.

These six buildings will be relocated on KHC property sometime in the near future.

The board of directors of Kahuku Housing Corporation will provide living quarters for its present teachers living in these cottages and other teachers at Kahuku High & Elementary School, if vacancy exist.

We have tentatively selected Ocean View area as the site for these six cottages.

We feel that this area will not jeopardize any home or gardens and would be economically possible to bring water to this area. This area is also within our boundaries.

To give you some idea of the description of these buildings, the following are the information for each building.

<u>BLDG.</u>	<u>LIVING ROOM</u>	<u>BEDROOM</u>	<u>BATH</u>	<u>KITCHEN</u>	<u>FLOOR AREA</u>
#1	1	6	2	1	2,304
#2	2	6	2	2	2,000
#3	3	6	3	3	2,004
#4	2	6	2	2	2,060
#5	1	3	1	1	1,370
#8	1	2	1	1	1,058

The Board of Directors of Kahuku Housing feels that in order to keep good teachers in Kahuku, this act of acquiring and providing homes for teachers will establish this goal.

## LDS SPEARHEAD KUKUA PROGRAM

The people of the Church of The Latter Day Saints-Kahuku branch have started a program to help the people in need of help.

On May 29, 5 p. m. about 50 people, young and old, kane and wahine turned out to help Huddy Clarke clean up his yard. Knives were swirling, hoes were banging, rakes were swishing and even a coconut tree had it's trimming.

All of this work ended about 2 1/2 hours later with pleased Huddy Clarke and a clean yard. According to Dr. Heder and Harry Au "no pau yet" they plan to return to the Clarke's residence on Thursday 6/5/75 to finish up.

Kahuku Housing helped by providing equipment.

Harry Au commented, "this is just the beginning, we plan to continue helping the people who need help and invite others to join us to help others."

The Kahukuan News expresses our thanks to these wonderful people in their effort to help other people and make Kahuku Village that much more cleaner.

## OBSERVE FIRE SAFETY DURING SUMMER AND ALL YEAR-ROUND

All systems are A-OK at our Fire Station. Lately, there have been no emergency calls originating from the Kahuku area. Most calls have come from the Laie area and the agricultural areas outlying our town.

Nonetheless, Acting Fire Captain Wallace Bright and his team of five are ready to act on emergency situations (fire and rescue) should they arise.

Summer months bring a lot of nice, hot sun, but all of this heat turns the dry brush into a potential fire hazard. In the Army training areas, there are visible color-coded diagrams showing the degree of dryness or potential fire hazard in the particular area.

Acting Capt. Bright cautions our residents about careless open burning of trash or the like. Be sure you have available water to douse an uncontrollable fire, have someone watching the fire at all times, and try not to do some burning under windy conditions.

Director Michael Payton and the Red Raider Marching Band are just about ready for their 2-week gig on the continent. Over 80 members, High Steppers, and charerones will leave on July 22 for Seattle, Canada, California, and Mijana, returning on August 4. Highlighting their tour will be their participation in the Disneyland Bi-Centennial Celebration, the Hollywood Bowl, Magic Mountain, and Knott's Berry Farm. The band trip is the culmination of a year-long planning and countless fund-raisers which included a buffet luncheon, candy, chicken, and stationery sales, and a carnival. Mahalo to all who helped to make the trip possible for our young adults.

#### L.D.S. KAHUKU TO GO TO CALIFORNIA CITIES

Twenty-seven members of the Mormon church (9 children and 17 adults) will depart on July 17 for San Francisco and Los Angeles for a 12-day trip. They wish to thank the members of the community who sacrificed their time and gave donations in their money-making projects which began last February. With everyone working together, it was possible.

#### KAHUKU YOUTH ORGANIZATION IS OFF TO A GOOD START

KYO's "Fun Day" last June 21 was so good that the activities didn't stop until 7:30 that night. Over 150 kids and adults enjoyed the games and the ono kau-kau. Prizes for the relay games were donated by our Kahuku farmers. Kailua, guests for the day, battled Kahuku's team to a tie. In other games, the "fathers" lost to the Broncos, while the "mothers" edged the Midgets.

The Mustangs and Broncos have recently been playing with Kailua. Outside activities included a camp-out at Kuilima Cove. Heading the Mustangs are Coach Brad Heder, Asst. Matthew Primacio, Team Mother Pat Au. The Broncos are led by Coach Michael Tejada, Asst.'s Steve Kakuni, Milton Caulford, and Team Mother Sally Tejada. Call Mother is Jane Lagua. For the month of July, KYO will work with the City Parks and Recreation in boys and girls Flag Football.

#### "UPWARD BOUND" GIVES COLLEGE EXPERIENCE TO KAHUKU STUDENTS

Sponsored by the US Department of Health, Education, and Welfare, and the University of Hawaii, the Upward Bound program helps low-income students who are college-bound potentials, but lack the motivation. Acceptance into the program is by recommendation of a teacher or counselor, and interviews. The director is Eugene Shen.

Participating in the 6-week program are Thomas Canaday, Marcia Ramos, Cheryl Fisher, Mary Ann Aubrey, Alice Ramos, Milo Santiago, Mary Robinson, and Allen Kahawaii.

The program began with a camp on June 16. Each student is now taking four classes a day, such as Chemistry, Math, English, Personal Development, and electives in sports or music. Credits can be used to make up deficiencies in high school, but none of our students are taking the classes on this basis. A chartered bus provides a ride for these students, and they are given a \$60 stipend, and two meals daily. They only pay for excursion expenses.

#### 1975 HAWAII NATIONAL TEEN-AGER STATE FINALS

The 1974 Queen Norma Coburn reinforced the objectives of the pageant -- what's right about America and its teens. She said, "Everyone, everyplace is beautiful, in its own way," and that evening was a good example.

## KNOW THE PROCEDURES

Many times our people are not aware of procedures set forth by the directors or manager, and we have problems meeting their requests. We hope this will help you better understand the procedures.

### REQUESTS:

A. Repair Requests -- All repair requests (plumbing or electrical) will be reported to the office. Make sure you report in details the extent of your request, also giving your house number and camp. All emergency repairs after working hours will be reported to the manager. NOTE: The calling of the maintenance man or any other employee of the corporation will only delay your request.

B. Request for Cesspool Pumping -- All requests for cesspool pumping should be made through the Housing Corporation office. This procedure will also tell us the areas that we are having this kind of problem. Your cooperation on this matter is important to us. We also ask that you report to us when the C&C people pumped your cesspool. This will become record for the corporation.

C. Request for Use of Corporation Equipment -- This includes mobile equipment, chairs, tools, or any other property that belongs to the Housing Corporation. The requirement is that you make a written request at least 2 days prior to the day that you want it for. The form will be furnished by the office, and after completed, be forwarded to the manager for approval or denial. You should call the office to find out whether your request was approved or denied.

D. Request for Use of Community Club House -- This request has to be made in writing at least one week prior to the time you plan to use it. I would suggest that you check to see if the building is available for that date. If the date is open, then apply. Again, check at a later date to see if your request was approved.

E. Request for Bulky Items Pick-Up -- All requests for bulky items pick-up should be made not later than the last Friday of each month.

F. Request for Roofing Materials -- Roofing paper will be furnished by the Corporation on a limited amount basis. We will consider all requests and make inspection before purchasing the material. For spot leaks, we suggest that you try to patch or paste the area.

\*\*\*These procedures are at present in effect, but can be changed at a later date by the directors or the manager.

\*\*\*\*Copies of these procedures and/or policies are on file at the KHC office.

## WATER SHUT DOWN PROCEDURE

When we know that there is a break in our main domestic water system and that we will shut down the system, the following are the procedures we follow:

- 1) Determine when the system will be shut down.
- 2) Maintenance crew prepare for repair.
- 3) Inform fire station, hospital, clinics, school, commercial people, and tenants. NOTE: We ask that to help us speed up the informing of water turn-off to all concerned, that you NOT call the office about this situation. We have 246 homes to make calls to, including the above mentioned people.
- 4) Determination of "When pau?" is questionable until we shut down, dig the area, pump out excess water, and see the extent of the breakage. The fire department is then notified as to the "When pau?" time.
- 5) Repair is then made.
- 6) Fire hydrants throughout the village are opened to release the air in the system. NOTE: We have been having problems with people closing the hydrant while we are trying to bleed the system and restore the water. The closing of the hydrants while we are trying to restore water can result in another breakage.
- 7) Check for leak at repair site.

## RUBBISH DUMP TEMPORARILY CLOSED

We are seeking another area to be used as our community rubbish dump.

Our present dump site will be turned over to the State for a bird refuge area.

We are presently trying to minimize the dump so as to clean up the place.

Being that most of the area around our present dump will be used in the future, we are proposing to go mauka, between the coral pit and Cross Hill. This area has to be cleaned and secured before we put it to use.

For the meantime, the present dump will be opened on Saturdays from 8:00 A to 12:00 noon.

## POTTED PLANTS "DISAPPEARING"

For the past several weeks, we have had reports of missing plants from our people. They disappear during the day time hours.

We are trying to police the village but we find it almost impossible to catch the people that are taking potted plants.

Your guess is as good as mine as to what they do with these potted plants.

We ask that if you see any suspicious character in the village, call HPD or KHC to investigate immediately.

## ESTHER KAU -- NEW FACE, NEW IDEAS

(Mrs. Esther Kau, our new vice-principal since last Spring shares some things about herself and the coming school year. She had previously worked at Kalani High.)

\* Mrs. Kau was born in Hilo, and now resides in Makiki with her husband. She has a son, studying in a Colorado Veterinary school, and a daughter-in-law. She is formerly a music teacher. In her leisure time, she plays bridge and sews.

\* As VP, she is currently working on curriculum, and with the high influx of immigrant students, she and the faculty have tried to minimize problems that come with this change. In three years, the number of immigrants has risen 300%. The school's enrollment has increased.

The Emergency School Aid program will be implemented in September for these students. Being planned are "cultural villages" on campus. The largest group, Samoans, will be the first in construction, followed possibly by the Tongans and Filipinos. A student may be instructed in his foreign language and English, for two periods. They will intermix with other students in the remaining four periods. The American village will be designed to be the ideal practice place. Social Studies classes will get involved in helping these students improve their self-image.

\* Mrs. Kau encourages a bit of interchange between the school and the community and organizations. Let's work together, and learn from each other.

## LIBRARIAN, KHS TEACHERS TRAVEL TO JAPAN

The Eugene Oshima's, thirty BYU kids, and KHS schoolteachers Vernon Honda, Alma Cirino, Anne Sheridan, Kristine Nonaka, and Diane Shiroma enjoyed their 3-week long Japan trip very much. Stops included Tokyo, Kyoto, Kamakura, Nara, and Osaka.

The teachers were fortunate in meeting a famous painter through a rare home visit.

The impressive seven-story dept. store TAKASHIMAYA (comparable to our L.H.) has a wide variety of shops, restaurants, and amusements -- meat, candy, senbei, arare, garments, toys. The amusement center at the top features live animals, and over 60 animals rides and pinball machines.

When asked about the "super hero" craze, Cecile Oshima said that they were popular there, like here in Hawaii. There are many programs on TV, and novelties of the heroes that the children collect.
